Academic Program Descripti

the introduction:

It is The program Educational As pack Coordinator and organization from Courses Study that Includes on procedures and experiences organize In a way Vocabulary Study Purpose basis From it building And polish skills graduates Which Makes them Qualified To meet requirements market the job It is Review it And its evaluation annually via procedures and programs Auditing Interior or External like program The examiner External.

He presents a description The program Academic summary summary For the features President For the program and its decisions Explaining Skills that It is the job on Gaining it For students Built on according to Goals The program Academic And it manifests importance this Description Because he It represents Stone basis in Get on Accreditation Programming And he shares in Writing it Angels teaching Supervised committees Scientific in Sections Scientific.

It includes this The guide In its version Second Description For the program Academic after to update Vocabulary paragraphs The guide the previous in a light Updates and developments order Educational in Iraq Which Include a description The program Academic In its form traditional system(annual, quarterly)Please on Approval a description The program Academic The turban Under book circle Studies T m3/2906in3/5/2023In the Regarding Programs that It depends path Bologna Basically For her work.

And in this Field no We can unless that We confirm on importance writing a description Programs academy and decisions Study To ensure Hassan progress The process Educational.

Concepts and terms:

a description The program Academic: He provides a description The program Academic In brief Briefly To see him And his message and its goals Including D escription accurate For outputs Learning Targeted on according to Strategies t o learn Specific.

a description The course: He provides In brief Requiring For the most important features The course and outputs Learning Expected from student Achieving it Proving About if He was may Achieved Benefit Maximum from Opportunities L earning Available.And it will be derivative from a description The program.

vision The program: image Ambitious For the future The program Academic T o be program advanced and inspiring and motivator In reality and acceptable F or the application.

message The program: It explains Goals and activities Necessary To achieve it In a way summary as He specifies Paths development The program and its trends.

Goals The program: she expressions Describe what He intends The program Academic Investigating it during a period Time Specific And it is midwife For measurement And the observation.

Structure Curriculum: all Courses Study/Materials Study that It includes The program Academic on according to system Learning Approved(quarterly, annual, path Bologna)whether She was Requirement(ministry, university, college And the section scientific)with number Units Study.

outputs Learning:group Compatible from Knowledge and skills and values that Acquire it student after an end The program Academic Successfully And it is necessary that He specifies outputs Learning per Decision In the form that Investigates Goals The program.

Strategies education and learning:That she Strategies Used from before member body teaching To develop education And learn student It is Plans It is Follow it To access to Goals Learning.any Describe all Activities The classroom and non-classical To achieve results Learning For the program.

The relationship betwe en the study subjects i s free			Meet the prereq uisites Common Require ments
	Semester	None	
La Dejoie	Semester	La Dejoie	

The goals of the study came and the contents are not

- 1 . Concepts of Statistics Students are able to understand the definition of the terminology and then the data are not available to the statistical data.
- 2 . Mastering data visualization techniques. Students are able to decorate the appropriate data visualization earning and design surveys and analyze the relevant data.
- 3 . Presentation and summarization of data for a non-descript group. Students are able to create a descriptive data (e.g., lips, histograms, bar charts, dispersion scattering) using descriptive statistics.
- 4 . Basih Resfto Maqais Hajtla Central. Baji Na Noki Students are able to read Basih Mahfo Naam Al-Mid Tisolao Lawnmlau.
- 5 . Basih Resfto Scales of Dispersion. Students are able to understand the scale of the dispersion and the standard deviation.
- 6 . Mahf al-Azum Ahtibitu:
- 7 . The definition of the intention is that it is not important to have a purpose in statistical analysis.
- 8 . The Bahá'í Decree of the Absolute Decree of the Prophet.
- 9 . Basih risfto qamais al-absolute deviation is the relative deviation of the distribution of the symmetry.

Academic Goals

- 10 . The hypothesis of the hypotosis is used to describe the distribution of the natural distribution.
11. Mahf Basho Taptrala is a simple linear analogy to measure the linear relationship between the Nerigtam.

- 1 . Statistics are defined by Harsho Harrod in various fields.
- 2 . Different types of data (qualitative, complete, sequential, sequential, comma, ratio) were examined.
- 3 . Data integration using appropriate tools (surveys, experiments, observations).
- 4 . Organizing and summarizing data in Madkhtsa, Variant distributions of Ludjlao Muserlau and Inibla.
- 5 . Basih Resfto Munqais Hajtla Central (Al-Medium, Al-Wasit, Al-Manwal).
- 6 . Harsh Sa'ikh Measures of Centralism Ahmadkhtsav Al-Fiq.
- 7 . Basih Resfto Comparisons of Dispersion (Range, Variance, Standard Deviation).
- 8 . Harding the measurements of dispersion and decentralization.
- 9 . Identify the importance of the intention in the statistics and the importance of the distribution of the data.
- 10 . I don't want to be a part of the Al-Aqsa Mosque and the Persian **Empire**.
- 11 . The definition of the Zozom is that it is not a determination.
- 12 . I cursed the absolute determination of Herodotus in the analogy of the dispersed statements.
- 13 . The definition of absolute deviation is the fact that it is a presumption of the claim that it is a distribution of **statements**.
- 14 . **I don't see any of the different types of** seeds that I have measured the deviation of the deviation.
- 15 . The relative deviation is the same as the distribution of the seeds.
- 16 . The definition of kurtisification is defined in the chapters of the stabilization and the flattening of the distribution of data.
- 17 . Basih Risftu Miq al-Tajanaf, Ziyimtalau bin Laksha al-Tawziyat.
- 18 . Basih Resfto Tabattarla Al-Basit.
- 19 . The statistical concepts of the real Keshim Malala are the real ones for the data and the data is not the same as the data of the Prophet.

Trade in the study

1. Statistics Major: Statistics are the Subject of Statistics, Statistics is a Field of Statistics.
2. Data Types: Qualitative Data Yamklau, Tayotsmo Measurement (Yamsala, Ordinal, Interval, Ratio)
3. Earring of data analysis: Techniques of sampling (Ya'awsha'a, Taysib, Yaqt, Yajnam, Yadukna'a), Da'atla for the Survey Collections
4. Data Dog:
5. Muserlau and Yennipla Tables: Bar Charts, Muserlau Yennipla, Pie Charts, Line Charts, and Scatter Plots
6. Graphical presentations: Reicha Graph suitable for different data
7. Measures of Centralism: The Mediterranean, Lautis Launmlau, Characteristics and Interpretations
8. Measures of Dispersion (Variance): Range, Variance, Standard Deviation, Variance Parameters, Characteristics and Interpretations
9. Al-Azum Ya'la: Definition of Al-Azum, Basho Al-Azum (Al-Kharam Yazkamla), Resfto Al-Azum in Izzut Al-Bayanat
10. Al-Azum Yilma'ala: Mahf al-Azum yilma'ala, tafla bein al-azum yed'ala yilma'ala
11. Absolute Moments: The definition of absolute torques, the broadest of absolute torques, and the absence of any risks

Contents

12. Measurements of the deviation of the absolute: Mahf al-deviation (rasi, nimi, lathamtam), basih al-deviation al-absolute, tata biq al-deviation if lilahat al-tawziyah
13. Relative Deviation Measures: The Difference Between Absolute Deviation Yasnlau, Relative Deviation, and Interpretation of the Data
14. Homogeneity: Definition of homogeneity, distributions, and applications of risk and deterioration.
15. Tabatrla, Al-Khatti Al-Basit: Lam'am Tabatra Pearson, Tafsir Miq Tabattarla, Al-Taqt Dwiqlaw.

Taijitartsa Malatala Milat La

v

. Active Curse:

o Class Discussions:
Open discussions and debates are a statistical concept board.

o Tassard Status:
Madkhtsa Latma Lama Lama Reala to explain statistical applications.

2. Real-world applications:

o Connectivity
In the topics of the Reckoning: Explain the statistical concepts with the topics of the students' Cursed Soul (for example, the Economics of the Cursed Soul).

o Statements of Nam Mulla
Al-Haqiqi: Madkhtsa Tauma Real-life data for exercises.

3. Talk:

o Data Aggregation:
Students have developed their own paths (e.g., the study of the study and the measurement of physical features).

o Statement Statements:
Creating a Metaphor for Data Visualization.

4. Damn it, don't blame me, curse the problems:

o Precision
Scenarios: Student Studies: Tahuiranisp Nam Mullah Al-Haqiqi requires statistical analysis.

o Wave Discovery:
The students were encouraged to learn the relevant statistical concepts and techniques.

5. Freeze Technology:

o Resource Quarter
Tannerlaa: Develop the resources of a quarter of the Tannerlaa for interactive and interactive **exercises**.

Tygitarsella

6 . Notes and **Notes:**

Conclusions and Assessments: Medkhsa Mix Namnam Asses
sments, Ambiv Tarabkhla Short Exams and Exams Irrashmlao
and Performances Killed **Others.**

Notes are checked: A good timer is a good time for the students.
Taigitarsa is a curse for students.

- 1 . Active participation: Crash in class discussions for the group of Ma'al
a and Tashnlao Yilma'ala.
- 2 . Regular Practice: Solve the problems of the Niram Tala to strengthen t
he Mishra.
- 3 . Daftsla Nam Resources: Daftsa Nam Textbooks Dramlau Quarter Ten
nertlea.
- 4 . Assistance tiles: Do not hesitate to use the help tiles in the classroo
m.

The relationship between the study subjects is

s free			Meet the prerequi sites Common Require ments
	Semester	None	
	Semester		

The goals of the study came and the contents are not

- **Students' Definition of Idabmlao Yissla Radll: Students will learn about the main concepts of Edabmlao Yissalaa that have a foundation for the development of the Radlaa Lak Sramco.**
- **I increased the response to make decisions: I prayed this as long as the students cursed the riots
Effective decision-making is not a good idea.**
- **The students have been disciplined for their criticism of the students, and they have been disciplined for their problems, and they have been trying to achieve the institutional goals.**

Academic Goals

The following concepts are as follows:

- Identify the importance of organizational goals.
- They are the ones who are responsible for planning, organizing, organizing, and planning.

I am not bored with the functions of the Radla:

- The branch of the Brotherhood of Wisdom and Wisdom (planning, organization, orientation, and planning).
- I have been able to adapt to different work environments.

Trade in the study

Fill in the following ideas:

- Identify the major theories (hence the classical theory, the relations between the modern theory).
- I don't think you have a quarter of the time.

The following is a list of the work of the Mississippi State Legislature:

- The factors that have contributed to the internal work of the Tribunal.

1- Still with morals Working: - The Conservative Party has been working hard to make decisions on a daily basis. - Increased integrity in decision-making. 2- You still have to play Usmlao: - I have increased the literature of the people who are still dealing with the employees and I am not in addition to the 90 times I have been saved. - The literature of equality has been lost in the opportunities of its employees and the need for the sake of the workforce. 3- Martha Reidlaw: - The students are encouraged to relax and relax, and this is a great way to work with the stakeholders. - I have increased the value of individual efforts and the work of others. Action Horb Team: - Collaborate and work together to achieve common goals. - I have spread the word among the members of the team.	Contents
Taijitartsa Malatala Mil at Lav	
1. Lectures: When did you study the study materials for the lecture brother to study the subjects? The lectures are aimed at the students, the concepts are refined and the necessary work is done. 2. Group Discussions: When to organize interactive textbooks between students on different topic boards, um, interactive with the students' materials 3. Tassard Case: When Madkhtsa Tassard is a case in point, when you are willing to explain the applications of theoretical concepts, students are trained in analytical thinking and decision-making. 4. Continuous Killing: When do you want to be able to measure the students' attention to the subjects, they are not going to kill them, they are going to kill them, and they are going to kill them.	Tygitarsella

5. When to review Damla, stand on the power point to explain Damla to students.
